

Crystal Pacific was established in January 2012 by Thomas Chen, the founder of Crystal Window & Door Systems (Crystal). Celebrating more than 30 years of operation, Crystal has grown from a startup in 1990 to an award-winning national manufacturer of fenestration systems and one of the top window manufacturers in the nation.

Energy Performance  
**LowE3 + Argon**

Recommended For  
 Title 24 &  
**ENERGY STAR**<sup>®</sup>

LowE3 performance glass with Argon gas lets light in while blocking much of the sun's UV rays.

It helps keep the indoors comfortable by reducing heat gain from the sun and heat loss when it's cold.

**Create Stunning Views**

VISTA SERIES WINDOWS & DOORS

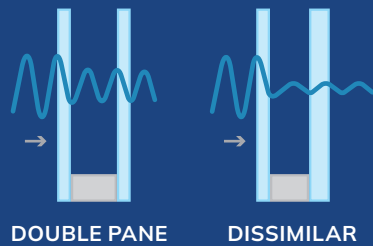

Whether you're looking to create stunning views or simply improve the aesthetics of a room, Vista Series windows and doors have the style and energy efficiency you need to transform any home.

Every window and door is custom made to your specifications using quality vinyl and high-performance glass. And with a wide range of product options available, you can effortlessly enhance any living space.

Acoustic Performance  
**Dissimilar Glass**

Recommended For  
 Sound Transmission  
 Class (STC)

Each glass thickness reduces different frequencies of sound transmission to improve acoustical properties.

Dissimilar glass, 1/8-3/16 is a favorable option due to its balanced consideration of cost and STC performance.

**Complement Your  
 Windows**

BUENA VISTA & VALENCIA DOORS

For an exceptional patio or balcony experience, complement your Vista Series windows perfectly with Buena Vista sliding doors and Valencia swing doors.

Enjoy quick and easy access to your outdoor space with Buena Vista sliding doors. And experience the perfect blend of functionality and style with Valencia inswing, outswing, and sidelite door options.

## Wildfire Safety Tempered Glass

Recommended For  
 Wildland-Urban  
 Interface (WUI)

In California, one of the acceptable requirements for exterior insulated window glass in the WUI (wildfire areas) is a minimum of one tempered pane, "wildfire glass".

Always check local building codes for requirements.

**Exterior Color**  
 A color is applied to the exterior, while the interior remains white.

**Between-The-Glass-Grids**  
 1-inch sculptured or 5/8-inch flat grille patterns.

**Specialty Glass**  
 Semi-opaque glass options, including Obscure (P516), Rain, and Bamboo.

The colors and glass shown are not an exact representation. Variations may occur.

## Elevate With Style

### DESIGN ENHANCEMENTS

Elevate your windows and doors with stunning exterior colors, or add a touch of sophistication with between-the-glass grids, or create a

private sanctuary with specialty glass. Discover the perfect blend of design and performance with our extensive range of product options.
